Laclede Schools

The Laclede schools open two weeks from next Monday, September 4. Much work has been done to the interior of the building and it is now in good condition. The rooms have all been thoroughly renovated and cleaned, floors scrubbed and oiled and all seats and blackboards repaired where needed. A steel ceiling has been put on in the southeast basement room and new lockers built and everything is ready for the opening. The only thing lacking is fuel, but it is hoped that will be on hand by the time needed. Those living outside the district who have pupils to enter high school can do no better than send them to Laclede. Superintendent Trippier will be here next week and will be glad to confer with those who may be interested in what our school has to offer.

Famous Tea Room

A beautiful tea room of the famous Ritz in Paris is reproduced in Billie Burke's new Paramount picture, "The Frisky Mrs. Johnson," which will be shown at the Laclede theatre Saturday night. The set was constructed at enormous expense and adds greatly to the value of the production.

Not an architectural detail of this immense set was overlooked and to add to the realism of the scene, many stage beauties were employed to take part in the action. The costumes worn by these women on this occasion are beautiful and will be relished by every woman who sees the picture.

Miss Burke has a strong role and her support, headed by Ward Crane, is excellent.
